

Pets in Affordable Housing

Properties under the National Rental Affordability Scheme are owned by individual investors and it is at their discretion as to whether a pet is approved for their property.

Written approval from the owner must be obtained BEFORE you acquire a pet.

Application can be made by completing a Coast2Bay Pet Application. If the application is for a cat or dog, please provide the following:

- Evidence that your pet has been registered with the local council;
- Evidence that your pet has been desexed;
- Evidence that your pet has been micro-chipped; and
- Evidence that your pet has been fully vaccinated.

If the Pet Application is for a pet other than a cat or dog, evidence must be provided that the keeping of this pet does not contravene local government laws.

Snakes and Reptiles will not be approved in properties that Coast2Bay manages.
